WORK EXPERIENCE

App Developer

Ciphernet Technologies

03/2021 - 02/2024

Ikota, ajah, Lagos state

At Ciphernet Technologies, I specialize in app development, seamlessly integrating front-end and back-end technologies. With skills in CodeIgniter, Flutter extends my capabilities to mobile platforms, and effective SQL database management optimizes data processing. Rigorous testing ensures application reliability.

ACHIEVEMENTS

Among my achievements, I've played a key role in developing an employee activity tracking app for the company using Flutter and CodeIgniter 4, with the server successfully deployed on cPanel. This app enables real-time updates on daily tasks, streamlines team management, enhances workflow visibility, and improves overall efficiency by providing a centralized platform for tracking and reporting.

INTERESTS

Passionate about creating user-friendly, efficient applications across platforms, including Flutter and CodeIgniter 4.

Enthusiastic about crafting seamless user experiences and visually appealing designs that enhance usability.

Enjoy tackling complex challenges and finding creative solutions in both development and everyday tasks.

Strong believer in collaborative work environments that foster innovation and growth.
